

On 13th May the Government published new advice on home moving.

We have welcomed the opportunity to return to work and assist our clients in their home purchases and sales, we are also very aware of the implications this has on everyone's well being. In light of this we are strictly adhering to the latest safety guidance and ask kindly that you observe these conditions too.

Before attending an appointment with us please review the safety guidance below.

Please:

- Only arrange and attend a physical appointment if you are serious about moving. If you are just curious please view the Virtual Tour before committing to a physical appointment.
- Only view with people who currently form part of your household.
- Do not attend an appointment if you, or anyone in your household, is showing symptoms of coronavirus or has been asked to self-isolate.
- Do not bring children with you to the appointment.
- Seek to maintain a minimum of 2 metres distance from others where possible. Where social distancing is not possible please consider wearing a face covering in line with Government advice.
- Wash your hands with soap and water, or use hand sanitiser, immediately after entering the property.
- Avoid touching internal surfaces such as; door handles, light switches and work surfaces.

We will take every precaution possible to keep you, our clients and our employees safe during these uncertain times.

Thank you in advance for your cooperation.
